*Continuing my education.

The results of this survey will be used to make positive changes in the way the college operates and serves students.

Your comments and feedback are encouraged and help us improve. (copied from survey written by student)

*Cossatot made it very convenient for me to take classes towards my degree with various options in classes and times.

*CCCUA has tailored itself to the needs of all students. I feel like I made the right choice in attending this school and would do it again. All of my teachers were excellent and showed legitimate concern when it came to my learning.

*The DeQueen Campus has an efficient library. The Nashville Campus does not. It needs more "text" research books.

*I enjoyed learning and attending this college. The staff and teachers are friendly and helpful. I will encourage future students to attend here in the future.

Graduate Survey Spring 2015

*UA Cossatot has given me the opportunity to continue my education while being a full time employee, wife, and mother. I am truly grateful for the wonderful school and the opportunities it provides for the surrounding areas.

*I really can't think of anything.

*Keep on the good work!

*I have enjoyed my time with CCCUA.

*I would not change one single thing about Cossatot. This has been a great experience and the staff is absolutely amazing. A BIG thank you to all my teachers I've had that prepared me for my future.

*Everyone is so nice and welcoming at this college. It was a privilage to be here. The teachers were so helpful and nice. I appreciate everything you all have done for me.

*Cossatot was great in every way! I wish I would have listened in 2009 and began college here in the first place!!

*The Praxis Test should be available at the CCCUA campus. Students should be taught how to use the computer before enrolling in classes that require a lot of computer work. There should be more informative instructions on how to on computer programs as in Tech. for teaching. The college should have a website for students to post their blogs, web pages, videos, etc. for technical classes that require these practices.

*Everything is great, I would not change a thing.

*Was unaware there was a Job Placement office. Could have the instructor put out that information.
