The results of this survey will be used to make positive changes in the way the college operates and serves students.

Your comments and feedback are encouraged and help us improve. *(copied from survey written by student)*

*My first semester at UAC, I was miserable. All my friends had gone off to college and were having so much fun. I felt left out. I was determined to transfer to SAU with all my friends. My second semester, I started to make friends here. Everyone that left talked about how much they missed being home. I started to have fun and realized that I loved being here. I loved the atmosphere and the people. I can't wait to start my new nursing journey, but I will miss UAC more than I can explain!

*more student activities

*More agricultural classes offered at different times, places and with different professors would have been beneficial with course scheduling. It would have made my experience much better. Cossatot's agricultural program could be very beneficial to the college if more money, time, and effort was applied to the program.

*Dr. Theusch is a great, dedicated and challenging professor. She intensely prepares the student for future, higher science classes. The love she has for teaching and knowing/helping students understand is magnificent.

*The only thing that I would have changed about UAC is to bring University Chemistry onto campus. I drive from Cove to Nashville twice a week and do not get paid any mileage. This is a successful college. All courses should be available ON campus.

*Great school: close to home. I just don't like how a couple of science classes I took, I was always having to buy things, they were online, was curious as to why they cost so much when we were the ones buying most of the things that were required out of our own pockets. Other than that I had a good experience here at Cossatot.

*I believe that it would help the students out more if the criminal law and criminal justice classes were in class instead of online. It is a lot to take in alone. Having a teacher present for questions, explanations and discussions would be more helpful.

*I believe the program is amazing. It is full of great teachers and important classes. I wouldn't have it any other way.

*5:30 classes are too late & messed up Mondays. It was too late when you have an 8 am class, 1:30 class and then nothing until 5:30. Make it around 4:30 or so would be better for future students.

*Coming to UA Cossatot was one of the best decisions I have ever made. I love the atmosphere and the availability of interacting with the instructors. The staff is wonderful and made transissioning from high school to college so easy!

*Tables with plug ins would be extremely beneficial for charging the tablets.

*Everything was amazing, in my opinion. Teachers are awesome and every single staff member. The only thing that would make it even better is if we had a library with more books. I love books.

*I loved the school, staff and students! I hate to be leaving this great college.
