PROGRAM INFORMATION: The Associate of General Studies (AGS) degree is particularly well suited for students who have acquired a number of college credits and need or want a degree. The degree can be structured like an Associate of Arts degree for almost complete transfer, may be designed with a business or technical career focus, or can be structured to meet the unique educational needs of the student. Students need not have acquired previous college credit to enter this program.

Associate of General Studies may be the best option for students planning to transfer to out of state institutions since they will be able to work with the transfer institution to identify transferrable courses and can take them as electives.
