**PROGRAM INFORMATION:** The Health Professions Technical Certificate is designed to provide students a basic medical education foundation and offers pathways to various medical education degrees. Some courses may not be transferable to all colleges in Arkansas. Please contact the Division of Medical Education to discuss your specific degree plan and where you are considering transfer.

**CAREER OPTIONS:** The Technical Certificate in Health Professions offers basic medical knowledge for employment in the medical field.

*Students must complete a minimum of 16 elective hours to complete this certificate but can complete up to 28 hours of electives within this degree plan. This degree plan is designed for students working on pre-reqs for medical programs.*
