

PLACEMENT OF STUDENTS IN THE COLLEGE

All first-time entering, degree-seeking students and technical certificate seeking students will provide test scores or be assessed in reading, English and math to meet ADHE requirements and for the purpose of placement in college-level English and math or developmental English, math and reading. Approved placement tests include ACT, SAT, ACCUPLACER, ASSET, or COMPASS.

Transfer students, from a regionally accredited institution of higher education recognized by the Council for Higher Education Accreditation, who have completed college-level course work in English Composition and/or a gateway level math course by a score of 2.0 or better on a 4.0 scale, shall be exempt from providing/taking placement tests for reading, English and math.

Students who have an associate's degree or higher where college-level English Composition and/or a gateway level math course were included in the degree plan are not required to provide entrance test scores.

Developmental courses may not be substituted for required courses, used as electives, and in most cases will not provide credit toward a degree or certificate. Developmental courses will not be calculated into the student's grade point for the purpose of honor designations or cumulative grade point average.

HLC Criterion: 3A; 3D.2; 4A.4
